SHANIDA

Software Developer

shanida26shaji@gmail.com | +91 97443 52147 | Kerala, India | linkedin.com/in/shanidashaji

PROFESSIONAL SUMMARY

Full-Stack Developer with an MCA and BCA background, working with React.js, Next.js, JavaScript, Node.js, Express.js, MongoDB, Python, Django and REST APIs. Currently contributing to live web applications at D4DX Innovations, with a focus on responsive UI development, administrative dashboards, debugging, testing and troubleshooting. Exposure to machine learning and computer vision through academic projects, and uses AI-assisted tools to improve development workflows.

SKILLS

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Design

Backend Development: Node.js, Express.js, Django, Flask, REST APIs

Databases: MongoDB, SQL, SQLite

Mobile Development: Flutter, Android (academic project)

AI / ML: Machine Learning, Computer Vision (academic project)

Development Practices: Debugging, Software Testing, AI-Assisted Development

JavaScript, Python, SQL

PROFESSIONAL EXPERIENCE

Full Stack Developer, D4DX Innovations — Apr 2026 - Present

- Contribute to full-stack web development on five live projects: JIH Women's Wing, QSC, Qspot, Malarvadi and Election Portal.
- **Frontend:** Build and refine responsive, mobile-first interfaces, administrative dashboards, login pages and page layouts for mobile and desktop devices.
- **Backend / API:** Debug APIs and work on examination, results and report-generation functionality in existing applications.
- Test applications, troubleshoot issues and maintain existing application components as part of the development team.

Full Stack Developer Intern, Riss Technologies — Mar 2026 - May 2026

- Gained hands-on experience in Python-focused full-stack development on real-world tasks, including backend functionality and database integration.
- Practiced debugging and software testing as part of the application development process.

PROJECTS

Qspot — Quiz and Examination Management System · React.js, Node.js, Express.js, MongoDB, REST APIs

- Contributed to the development and maintenance of a full-stack examination management application.

Malarvadi — Organizational Website · Next.js, Tailwind CSS, Express.js, MongoDB

- Contributed to an organizational website presenting the organization's history, objectives, activities, events and announcements.

QSC Web Application · Frontend, UI, Dashboard

- Improved frontend interfaces, including the login page and responsive layouts.

JIH Women's Wing Website · Frontend, UI

- Improved mobile-first responsive layouts, typography and page consistency across devices.

Election Portal — Election Management System · Frontend, UI

- Contributed to the development of a web-based election management portal.

AI-Powered Fire Detection and Disaster Response Monitoring System · Python, Machine Learning, Computer Vision

- Built a system that uses machine learning and computer vision to detect fire and support disaster response monitoring.

MERN Stack To-Do Management System · MongoDB, Express.js, React.js, Node.js

- Built a task management web application using the MERN stack.

Electro Medicon — Automated Meter Reading System · Flask, Python, Flutter, Android

- Developed an automated meter reading system with a Flask backend and an Android application.

Testimonial Wall — Rural Community Platform · Django, HTML, CSS, JavaScript, SQLite, Bootstrap

- Developed a Django-based web platform for a rural community with a testimonial wall, using SQLite for storage.

Healthy Baby — E-commerce Platform · Python, JavaScript

- Developed an e-commerce web platform using Python and JavaScript.

EDUCATION

MCA in Computer Application, Nehru College of Engineering & Research Center — Aug 2024 - Mar 2026

Python Full Stack Development, Network Academy — Apr 2023 - Jun 2024

BCA in Computer Application, MES Kalladi College — Aug 2020 - Mar 2023

CERTIFICATIONS

MERN Stack Workshop Participation, Zoople Technologies Pvt Ltd — Nov 2026

Full Stack with Python and Django — Oct 2026

Completion of Python 3 Training

PUBLICATIONS

“Exploring Deep Learning and Machine Learning Approaches for Brain Haemorrhage Detection” — IJNRD, March 2026

LANGUAGES

English, Hindi, Malayalam
